

# The Enchanted Woodland

During this topic we will be exploring the magic of the woods and the forest. We will be learning about the seasons, seasonal changes and the weather. We will also name the parts of a plant and discuss what a plant needs in order to live.

# The seasons

**Autumn** — The season after Summer and before Winter from September to November.

**Winter** — The coldest season of the year from December and February.

**Spring** — The season after Winter and before Summer from March to May.

**Summer** — The warmest season of the year from June to August.
